The abandoned rail bed linking Chezzetcook to Musquodoboit Harbor offers the potential of creating a park-like trail, where families, groups and individuals can walk, cycle, jog and cross-country ski, away from traffic and in beautiful natural surroundings. We know that healthy, active lifestyles help us attain and enjoy the best of life. An exciting opportunity exists to develop this 9.6 kilometre section of the old rail bed, abandoned since 1986, into a valuable community asset.

The Chezzetcook-Musquodoboit Trail Association (CMTA) was founded to help bring this opportunity to reality. The goal of the association is to create a non-motorized trail for community use. Our vision is that this parkland setting be preserved and secured for all to enjoy.

The Chezzetcook-Musquodoboit trail connects the communities of Musquodoboit Harbor, Gaetz Brook and Head of Chezzetcook, offering easy access to users.

The experiences the trail offers are unique and outstanding, crossing four bridges with scenic views of nature and wildlife. The trail provides access to water ways for swimming, fishing, skating and skiing. The trail, when developed, will link with the existing and well-used Musquodoboit Trail System, providing access to places along its route such as Gaetz Brook Junior High, Eastern Shore District High, the Musquodoboit Harbour Library and the Railway Museum.

A concept plan for development of the trail can be viewed at the Musquodoboit Harbour Library and HRM Office or online at the CMTA's webpage:
